

HOUSE OF WORSHIP SYSTEM DIAGRAM

Simplicity and flexibility across your site, connect and control your audio in multiple areas.

DiGiCo is a trusted partner, supplying mixing consoles for many house of worship clients around the world. 4REA4 opens up your audio allowing any breakout room or space to have full access to the main service, whilst still retaining full control for managing and mixing additional localised performance material as needed.

Our elegant and easy-to-use controllers allow you to switch between service layouts instantly ensuring ease of operation for all volunteer and dedicated staff as required.
