

THEATRE SYSTEM DIAGRAM

The ultimate in personal mixing, completely integrated with your console, all part of your venue's audio and control infrastructure.

Leading the way with dedicated theatre console functionality and audio performance, 4REA4 expands the DiGiCo install experience providing the ultimate in personal monitoring for musicians and general purpose automation control. Now any member of the orchestra or stage ensemble can have direct personal monitoring control of the live DiGiCo FOH feed, balanced and adjusted for their exact requirements including in-ear monitoring feeds.
